WELCOME TO EAHIL

Health and illness know no frontiers. The sciences that investigate them are perhaps the least affected by cultural variations. The systems for delivering health care in different countries of Europe have more common features than differences, despite political and economic influences. As a result European medical librarians and information workers have a great deal in common, regardless of the institution they work for or the country where they live. This realisation led to

Themenschwerpunkte

- Literatursuche
- Forschungsdaten
- Kommunikation
- Qualitative Methoden
- Quantitative Methoden

Thursday 11 June						
Plenary 2 Keynotes: Dr Alison Brettler, Dr Johanna Rivano Eckerdal						
Block B parallel workshop sessions						
Qualitative methods	Quantitative methods	Systematic Reviews	Miscellaneous	Communication	Research Data	
Observation techniques Thematic analysis in qualitative research A brief introduction to interviewing as a research method	Take another half-block or take a break Social Network Analysis Bibliometrics for information specialists	Searching trials registers and regulatory sources Reducing systematic review workload using text mining	Using action research in practice Making sense of the evidence: a workshop in critical appraisal skills for health librarians	Take another half-block or take a break Writing for Publication: Getting Started Getting Help and Getting Published	Masterclass by ESCO: Using Advanced Search Techniques Data Management Plans for grant applications	
10:00 - 11:20	11:30 - 13:00				14:00 - 15:50	
Block C parallel workshop sessions						
Qualitative methods	Quantitative methods	Systematic Reviews	Miscellaneous	Communication	Research Data	Masterclass
Dipholi technique Using Systematic Text Condensation for analysis	Take another half-block or take a break Introduction to Meta-Analysis Alternatives: how librarians can support researchers	Improving efficiency and confidence in systematic literature searching Project and data management in systematic reviews Sharing literature search blocks	Works in Progress - presentations & group discussions Science Social Network: researcher networks Take another half-block or take a break	Take another half-block or take a break Researcher Methods and Conference Experiences	Take another half-block or take a break Masterclass by Sage: SAGE Research Methods and Conference Experiences	Masterclass by ESCO: Using Advanced Search Techniques Data Management Plans for grant applications
14:00 - 15:50	16:20 - 17:50					
Friday 12 June						
Block D parallel workshop sessions						
Overview	Qualitative methods	Mixed methods	Systematic Reviews	Miscellaneous	Communication	Masterclass
Take another half-block or take a break Focus Group Interviews An introduction to phenomenographic research	Case study methods Questionnaire Design & Survey Management Take another half-block or take a break	Improving efficiency and confidence in systematic literature searching Health library benchmarking	Archives, historical resources and digital preservation Create a great poster Communicating With Impact To Hard To Reach Audiences	Take another half-block or take a break Masterclass by Elsevier: Mentelity Take another half-block or take a break		
09:00 - 10:10	10:40 - 11:50					
Plenary 3 Closing Keynote: Dr Liz Grant – Closing Ceremony

DREaM event 5: One minute madness

The One Minute Madness Horn

A selection of participants at the final DREaM conference were invited to give one minute of insight into an issue or project of interest, in a session chaired by Mike Clarke.

Session Format

Those that signed up for a slot were given just one minute to make a presentation to the audience, which was strictly enforced by Mike Clarke using the one minute madness horn. They were accompanied by a single slide providing their name, the title of their talk and their contact details so that members of the audience could get in touch to follow up on any points of interest.

Wednesday 10 June
Lunch and Exhibitor visiting 1230-1315 Appleton Tower concourse
Workshop Opening & Opening Keynote: Prof Hazel Hall, from 1315 to 1400, in Appleton Tower Lecture Theatre 5
Block A-1: Measuring impact in health library services, from 1410 to 1520, in Main Library room 1.11
Block A-2: Masterclass by Springer: Papers, reference management software to collect, curate and stay on up to date with research material, from 1550 to 1700, in Main Library room 1.12
Welcome reception: Playfair Library, Old College: 1800 until approx 1930. Light refreshments

Thursday 11 June
Keynotes plenary: Dr Alison Brettle and Dr Johana Rivano Eckerdal, from 0900-1000, in Appleton Tower Lecture Theatre 5
Block B: Bibliometrics for Information Specialists: Supporting Biomedical Research and Evaluation, from 1010 to 1300, in Main Library room 1.12
Lunch, Exhibitor visiting in Appleton Tower concourse, 1300-1430 with Special Interest Group meetings from 1330-1430
Block C-1: Masterclass by EBSCO: Using Advanced Search Techniques on EBSCDhost to Support Research, from 1440 to 1540, in Main Library room 1.12
Block C-2: Altmetrics: how librarians can support researchers in improving their impact, from 1610 to 1730, in 50 George Square room Project Room 1.06
Workshop dinner: National Museum of Scotland, Chambers Street. Drinks from 1845, please arrive by 1900.

Friday 12 June
Block D: Create a great poster, from 0900 to 1150, in Appleton Tower room M2b
EAHIL General Assembly from 1200-1230, in Appleton Tower Lecture Theatre 5
Lunch and Exhibitor visiting in Appleton Tower concourse 1230-1330
Closing Keynote: Dr Liz Grant followed by Closing ceremony: from 1330-1430, in Appleton Tower Lecture Theatre 5
Tour: Royal Botanic Garden Edinburgh Library & Archive. Depart Appleton Tower by bus at 1445. Return by bus to Appleton Tower by approx 1730.

Leiden Manifesto for research metrics

Nature, 23. April 2015

<http://www.leidenmanifesto.org/>

COMMENT

SUSTAINABILITY Data needed to drive UN development goals p.432

ENVIRONMENT Economics and environmental catastrophe p.434

GENOMICS Questions raised over proposed Anthropocene dates p.436

HISTORY Music inspired Newton to add more colours to the rainbow p.438

The Thinker

The Leiden Manifesto for research metrics

Use these ten principles to guide research evaluation, urge Diana Hicks, Paul Wouters and colleagues.

Data are increasingly used to govern science. Research evaluations that were once bespoke and performed by peers are now routine and reliant on metrics¹. The problem is that evaluation is now led by the data rather than by judgement. Metrics have proliferated: usually well intentioned, not always well informed, often ill applied. We risk damaging the system with the very tools designed to improve it, as evaluation is increasingly implemented by organizations without knowledge of, or advice on, good practice and interpretation.

Before 2000, there was the Science Citation Index on CD-ROM from the Institute for Scientific Information (ISI), used by experts for specialist analyses. In 2002, Thomson Reuters launched an integrated web platform, making the Web of Science database widely accessible. Competing citation indices were created: Elsevier's Scopus (released in 2004) and Google Scholar (beta version released in 2004). Web-based tools to easily compare institutional research productivity and impact were introduced, such as InCites (using the Web of Science) and SciVal (using Scopus), as well as software to analyse individual citation profiles using Google Scholar (Publish or Perish, released in 2007).

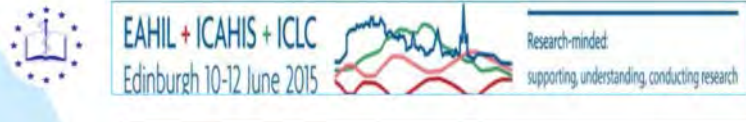

In 2005, Jorge Hirsch, a physicist at the University of California, San Diego, proposed the *h*-index, popularizing citation counting for individual researchers. Interest in the journal impact factor grew steadily after 1995 (see 'Impact-factor obsession').

EAHL15: Create a Great Poster
Posted on June 27, 2015 by Catherine Vassiliou | 1 Comment

This is great

How many times have you ended up with an aching back after continuously bending to read the bottom of posters at conferences? This is not a problem I've had but I realised after this session that I avoided looking at posters for too long to avoid this very problem. And that is what this session had as an icebreaker - what problems do you have with posters? This icebreaker focused on design problems though - and there are lots of these too. How do you fit all the information you want to have on your poster? Where do you put graphics and text? What about colours, fonts, graphs etc? Why create one anyway?

OVERVIEW OF EAHIL

The Aims and Objectives of EAHIL are to:

- improve co-operation amongst health care libraries throughout Europe
- strengthen links with medical and health libraries in Eastern and Central Europe
- raise standards of provision and practice in health care and medical research libraries
- keep health librarians and information officers professionally informed
- encourage mobility and continuing education, especially in regard to new technologies
- represent health librarians at European level, in particular at European institutions and at WHO
