Preprints: Worauf müssen Forschende achten?

- ▶ Informieren vorab u.a. zu folgenden Punkten:
 - Was darf man hochladen (z.B. Artikeltyp)?
 - Was passiert, wenn die Verlagsversion (Version of Record) erschienen ist? → Verlinkung, Löschung des Preprints?

 **bioRxiv**
THE PREPRINT SERVER FOR BIOLOGY

About bioRxiv [FAQ]

bioRxiv (pronounced "bio-archive") is a free online archive and distribution service for unpublished preprints in the life sciences. It is operated by Cold Spring Harbor Laboratory, a not-for-profit research and educational institution. By posting preprints on bioRxiv, authors are able to make their findings immediately available to the scientific community and receive feedback on draft manuscripts before they are submitted to journals.

medRxiv  **BMJ** **Yale**
THE PREPRINT SERVER FOR HEALTH SCIENCES

About medRxiv [FAQ]

medRxiv (pronounced "med-archive") is a free online archive and distribution server for complete but unpublished manuscripts (preprints) in the medical, clinical, and related health sciences. **Preprints are preliminary reports of work that have not been certified by peer review. They should not be relied on to guide clinical practice or health-related behavior and should not be reported in news media as established information.**

medRxiv is for the distribution of preprints - complete but unpublished manuscripts - that describe human health research conducted, analyzed, and interpreted according to scientific principles. Research articles, systematic reviews and meta-analyses, clinical research design protocols and data articles may be posted. MedRxiv is not intended for case reports (single or in series), narrative reviews (see below), editorials, letters, opinion pieces and hypotheses that lack data, work not premised on modern biology/physiology or allopathic medicine, laboratory protocols/recipes, theses, term papers, textbook excerpts or individual components of research articles such as figures, tables, and datasets.

Preprints: Worauf müssen Forschende achten?

- Perspektivisch: Fordert die mittelgebende Einrichtung ggf. die Vorabveröffentlichung als Preprint (Mandat)?

Plan U: Universal access to scientific and medical research via funder preprint mandates

Richard Sever , Michael Eisen, John Inglis

Published: June 4, 2019 • <https://doi.org/10.1371/journal.pbio.3000273> 

<https://doi.org/10.1371/journal.pbio.3000273>

- Zur Erfüllung der Mandate: Veröffentlicht die Zeitschriften die Manuskripte automatisch als Preprints oder auf Anfrage?

Abstract

From July 2021 eLife will only review manuscripts already published as preprints, and will focus its editorial process on producing public reviews to be posted alongside the preprints.

Rapid & Transparent Publishing

F1000Research is an Open Research publishing platform for scientists, scholars and clinicians offering rapid publication of articles and other research outputs without editorial bias. All articles benefit from transparent peer review and editorial guidance on making all source data openly available.

The screenshot shows the PUBLISSO website interface. At the top, there is a navigation bar with the PUBLISSO logo (ZB MED-Publikationsportal, Lebenswissenschaften), a 'PUBLISSO-Kontakt' dropdown menu, and 'Login' and 'DE EN' buttons. Below the navigation bar, there is a search bar labeled 'Seitensuche' and a list of services: 'PUBLIZIEREN', 'BERATEN', 'FORSCHUNGSDATENMANAGEMENT', 'DIGITALE LANGZEITARCHIVIERUNG', and 'WIR FÜR SIE'. The main content area is titled 'Startseite > Beraten' and features a section 'Open Access beraten'. This section includes a paragraph stating that the publication consultation helps with questions about digital publishing and open access in life sciences, followed by a list of services: 'Open-Access-Publikation von wissenschaftlichen Ergebnissen...', 'Veröffentlichung von Forschungsdaten...', and 'Gründung von Open-Access-Zeitschriften...'. To the right of this text is a 'Kontakt' section featuring a portrait of Dr. Jasmin Schmitz and her title: 'Leitung Publikationsberatung / Open Access - Digitale Langzeitarchivierung - Forschungsdaten'.
