

# **Annual Meeting of the German Medical Library Association (AGMB), Wuerzburg, September 19 — 21, 2022**

## Hygiene Concept

### 1. Minimum distance

If possible, a minimum distance of 1.5 meters should be maintained between participating persons. This applies to both indoor and outdoor areas.

### 2. Mandatory use of masks

Participants are advised to wear a mouth-nose covering (medical or FFP2 mask) indoors if the minimum distance cannot be maintained. Participants have been informed and are responsible for compliance.

### 3. Hygiene

Participants are required to adhere to the usual hygiene measures (hand hygiene, coughing and sneezing etiquette). Indoor rooms are to be aired regularly.

### 4. Prohibition to enter the University

Persons are prohibited from entering University areas and buildings if they

- a) have been found to be currently infected with the SARS-CoV-2 coronavirus and do not have proof of recovery.
- b) have corona-specific symptoms of illness such as acute respiratory symptoms of any severity (cough, cold, sore throat), fever, and loss of smell or taste.
- c) are subject to quarantine measures.

If you have any questions regarding the implementation of the regulations, please feel free to contact the local committee.
