Data services & APIs

Digital illustrations, metadata and texts from the KB-collections are available for re-use. The data can, depending of the license, be used for research, web applications and other services. The data are available in linked data, as download, through an API [Application Programming Interface] using [SRU](#) or [OAI-PMH](#) or via Wikipedia Commons.

Open data sets

The following data sets may be used freely:

- › The [Delpher open newspaper archive](#), consisting of texts (OCR, ALTO, XML) of Dutch public domain newspapers published between 1618 until 1876 (as a download)

Artificial intelligence (AI)

A robot wrote this entire article. Are you scared yet, human?

GPT-3

We asked GPT-3, OpenAI's powerful new language generator, to write an essay for us from scratch. The assignment? To convince us robots come in peace

● For more about GPT-3 and how this essay was written and edited, please read our editor's note below

German-Dutch dialogue on the future of libraries

Libraries have been a trusted and ethical source since they have been in existence.

We have to reinforce that role in Artificial Intelligence.
