

**Open Call for Submissions for the
1. INTERNATIONAL SCREENDANCE FESTIVAL FREIBURG**

The 1. INTERNATIONAL SCREENDANCE FESTIVAL FREIBURG is an inaugural, new event and will be the first Screendance Festival in southwestern Germany. It will take place from 05.06.2019 until 09.06.2019. The festival intends to promote works which combine dance and film techniques as well as elements from performance, music, digital media and fine art in the medium of video in a cross-genre work. Its aim is to establish this highly international art form Screendance not only in the city of Freiburg and the county, but also in the triangular region Freiburg-Basel-Mulhouse as well as in Germany and abroad internationally.

DEADLINE FOR SUBMISSIONS: 31st of December 2018 (12.00 p.m.)

For this first edition of the Festival we accept works in the following three categories:

1) National-German-films with 2-minutes length, 2) International films with 30-seconds length, 3) Films which resonate with the theme *Willis – Nature spirits from the Black Forest*¹ with a maximum of 5-minutes length. The theme is inspired by the mythological figure Wilis from the romantic ballet *Giselle*. A unique and specific view in terms of the interpretation of this theme is appreciated.

The submission process is electronic and films must be available to view on Dropbox, Vimeo or YouTube. Please complete the submission form on page 2-3 and send it to screendanceinfo@theater.freiburg.de. Once selected, please note the ideal screening-format is DCP (mp4 or mov format is also acceptable). We only accept submissions related to the three above mentioned categories. **We do not screen documentaries or recordings of live performances.**

Films selected for screening will be shown at one of four days of screenings during the festival from 05.06. – 09.06.2019. Festival venues besides Theater Freiburg include Kommunales Kino, Freiburg.
